

## WatchGuard Certified Training

New Locations Announced

May 26, 2009

JStengel Consulting has announced upcoming WatchGuard training classes in a new location as well as adding classes in other cities. In response to growing demand for the world's best and most secure firewall solution we will be offering classes in Cincinnati, OH. We have also added classes in Milwaukee, WI and Harrisburg, PA. We believe that students will greatly benefit from training in these underserved markets. We already help clients across the country and we are excited to expand the offering even further.

Our training focuses on individual attention. We take the time to understand the business of all of our students and we try to relate their unique situation to the product. All students receive equipment that they can beat up all week to get their questions answered.

Comment from Recent Student:

**John,**

***I wanted you to know that I successfully upgraded our fireboxes to v10.2.8 tonight. Everything went well stepping up to v9.1, then 10.2, then 10.2.8. And then reapplying HA.***

***Thanks to your great training!!***
