

WatchGuard Certified Training

New Locations Announced

November 11, 2009

JStengel Consulting has announced upcoming WatchGuard training classes in new locations as well as adding classes in other cities. In response to growing demand for the world's best and most secure UTM firewall solution we will be offering classes in Hilton Head, Houston, Nashville and Park City. These are in addition to our classes in Charlotte, Harrisburg and Cincinnati. We already help clients across the country and we are excited to expand the offering even further.

Our training focuses on individual attention. We take the time to understand the business of all of our students and we try to relate their unique situation to the product. All students receive equipment that they can beat up all week to get their questions answered.

Comment from Recent Student:

John,

I wanted you to know that I successfully upgraded our fireboxes to v10.2.8 tonight. Everything went well stepping up to v9.1, then 10.2, then 10.2.8. And then reapplying HA. Thanks to your great training!!
