

A Charlotte, NC area consulting firm is looking to hire a new technology consultant. We are a stable business security and IT consulting firm with clients throughout the country. For almost a decade we have specialized in providing outstanding service to our clients through excellent communication and dedication to our clients' success. It is this dedication that has allowed us to grow over the course of many years. At this time we are excluding our company name but will disclose it prior to interviewing candidates to provide the opportunity to research us.

The Network and Security Consultant position is responsible for working directly with clients on managing and deploying IT related assets along with assisting sales team. This position will have a strong focus on maintaining client security while finding the right solutions for them to help their respective business objectives. The person chosen will also be responsible for making sure the client has everything they need to be stable and secure.

Job Responsibilities:

- Plan, deploy and maintain network security and server products.
- Maintain client server and network security systems.
- Provide system administration services to select clients.
- Research and evaluate solutions for client to assist sales team.
- Provide constant communication to client and management during projects and problem areas.
- Consulting skills such as analysis and documentation.
- Proactively work with clients to maintain an uptime objective.

Preferred Experience/Skill Requirements:

- Windows Server 2003/2008
- Microsoft Exchange Server 2003/2007
- Microsoft SQL Server 2000/2005
- Symantec Backup Exec Version 10/11d/12d/12.5
- Symantec End Point Protection/McAfee EPO
- Watchguard Firebox
- Websense
- SAN and NAS Experience
- Network and Traffic Analysis
- Wide Area and LAN Routing
- 5+ Years Experience
- Excellent Communication and Presentation Skills
- Any network security related certifications a plus. We will provide training and certification paths to meet our product mix.

What we Offer:

- Firewall and Email Security Training
- Medical and Dental Insurance
- Life Insurance
- Paid time Off
- Education and Tuition Benefits
